

JUNE 2014

VILLAGE OF HOPE

**Grand opening of Bobi Village: Feb 2014
96 more children have homes!!!**

We asked God to provide homes for orphans in Northern Uganda. He gave us 100 acres to provide homes & and an education for 200 orphans. We prayed for more homes... and He gave us 50 acres to build a 2nd Village for 96 orphans.

Bobi Village homes for girls: "Peace" & "Joy"

Easter Service at Bobi Village
Thanking God for HIS provision

Our boys and girls
are growing up!!!

SEE LIVES TRANSFORMED

*There were many "FIRST'S" this year. We opened up the VOH High School for over 80 orphans! This is the first time these boys (young men) have lived in a real home! They have been great examples to our younger children. And they really LOVE school.

*The 7th graders placed FIRST in their District!

The young mothers in the Tabitha Project started learning how to make baskets and we sold the FIRST ones in the US!

While I was in Uganda in April, I asked Rose, our National Director, "What is unique about VOH?" She said "In some organizations, they focus on educating kids and then send them to back to live on their own, or teach them a skill, and then send them back to the camps. But VOH does all of these things and more.

*Since we are a Christian Ministry, we **see God transform our children's lives**. We care for them from the point of their trauma, through counseling & healing, through academics & skill training, until they are healthy: physically, emotionally, mentally, academically enough to sustain themselves. And they will ultimately become spiritual leaders in their communities and country! We minister to the whole child!"*
